

**Cultural Tips For The Successful Grower
Chandler**

Chandler - Patented Variety. Fruit is long conic to long flat wedge. Glossy and very firm skin with very firm flesh. Good dessert and freezing quality. Plants are semi-erect and runner production is excellent. Susceptible to Red Stele, Leaf Spot, and Leaf Scorch. Used commercially in California. Also recommended along the Gulf Coast and Florida. A good fresh market berry that ripens early.

Planting Instructions: - In the home garden strawberries make an excellent ground cover. No soil preparation is necessary if the flower bed is mulched with bark dust, saw dust, etc. Simply dig the plant in leaving the crown exposed at ground level. Never plant strawberries to a depth where the crown is buried. Avoid wadding the roots in the planting hole.

Variety	Zone	Season	Size	Classification	Exposure	Flavor	Spacing
Chandler	5-8 	 ↑ Early	 Large	Spring Crop Strawberry	Full Sun 	Excellent Flavor	1 Foot Apart In Rows
