

**Cultural Tips For The Successful Grower
Earliglow**

Earliglow - This cultivar is noted for its superior dessert quality. The medium-large berries are very attractive with a glossy, deep-red color. It is one of the best for eating fresh, as a frozen product, and in jams and jellies. The plants are very vigorous and productive; however, they bloom early and are subject to frost injury. The plants are somewhat disease resistant, also.

Planting Instructions: - In the home garden strawberries make an excellent ground cover. No soil preparation is necessary if the flower bed is mulched with bark dust, saw dust, etc. Simply dig the plant in leaving the crown exposed at ground level. Never plant strawberries to a depth where the crown is buried. Avoid wadding the roots in the planting hole.

Variety	Zone	Season	Size	Classification	Exposure	Flavor	Spacing
Earliglow	4-8 	 ↑ Early	 Med/Large	Spring Crop Strawberry	Full Sun 	Outstanding Flavor	1 Foot Apart In Rows
