- Quinault**, recommended for Alaska, the Pacific Northwest and the Midwest. Medium berry, firm and red with excellent flavor.
- Albion**, large uniform fruit and presents a distinguishable robust flavor and a rich red color.
- Fern**, always has fruit in different stages of development. Large, very firm, sweet berries.
- San Andreas**, high quality fruit early in the season, low chilling requirement, good candidate southern states.
- Aromas**, patented, characterized by its exceptional fruit quality (with very good flavor), large fruit sizes.
- Eversweet**, patented, long, conical fruit. Produces well all summer and into fall. Heat tolerant. Similar to Hecker.
- Seascape**, patented, fruit is symmetrically medium to long conic, firm. Outstanding flavor and appearance. Ripens thru Aug.
- Fort Laramie**, adapted to drier, colder climate, especially Utah and Idaho
- Tri Star**, this is a good variety for hanging baskets. Sells itself. Adapted to a variety of climates.
- Tribute**, well adapted to upland areas in the South and mild areas in the East. Underutilized in the Pacific Northwest.
- Hecker**, extra hardy, fruit medium size with excellent flavor, Grown commercially in Minnesota

- Benton**, late, extra hardy, fruit is very bright, excellent keeping quality, drought and disease resistant.
- Hood**, best flavor, known best as a fine preserve and jam berry, and is good for all other uses.
- Shuksan**, late, extra hardy, recommend this variety for colder areas of the Pacific Northwest. Tolerates alkaline soils.
- Chandler**, glossy and very firm skin with very firm flesh. Develops excellent flavor in the Pacific Northwest.
- Camarosa**, patented, recommended for our Southern customers. It is a huge berry of show quality and the flavor is good.
- Totem**, early, firm, conic, bright red berry. Best of the freezer berries.
- Tillamook**, patented, shows high yields of very large fruit with excellent yield and fruit size in its second harvest.
- Puget Reliance**, patented, softer juicy berries may become a home garden favorite. Large soft fruit comparable to Hood.
- Valley Red**, dark red fruit throughout. High yield, uniform medium sized fruit.
- Rainier**, extra hardy, best home garden variety from standpoint of fruit quality and disease resistance.
- Stolo**, large, firm, glossy fruit. High yielding, consistent size through season. Resists root weevils.
- Honeoye**, high yields and a long fruiting season make this a popular commercial variety. Very cold hardy.
- Sequoia**, earliest ripener, very large, dark red berries with real good flavor. Fair to good quality for dessert and freezing.
- Puget Summer**, Sweet berry, great for eating off the vine.
- Earliglow**, High yields of uniform deep red fruit with outstanding flavor, premium sweetness.

# AMERICAN TABLE AND JUICE GRAPES

## Important Grape Information!

We have been notified by the IDA that Oregon grape growers are no longer allowed to ship grape plants into Idaho without heat treatment. From past experience we know that the heat treatment process kills the grape plant itself.

This means that we will no longer be shipping table grapes into Idaho. We apologize for any inconvenience this may cause.

### Seeded Grapes

Bare Root Pricing per plant

PRICE:	2 Year #1 (10 or 25 plants per bundle)	Per 10	Per 25	Per 100	Per 500	Per M	
		\$2.38	\$2.11	\$2.01	\$1.96	\$1.90

**WHOLESALE  
 TRADE LIST  
 And ORDER FORM**

**Fall 2011\* Spring 2012**

**PLEASE SPECIFY SHIPPING DATE!**

**SHIPPING DATE**

**email Address**

**Terms and Conditions of Sales**

For your convenience please find a separate order form enclosed. Our SHIPPING SEASON is NOVEMBER thru MAY 1<sup>st</sup>. We try to keep a large selection of stock in storage for immediate shipment, weather permitting. Backorders are sometimes unavoidable when orders are placed for a broad selection of stock. Minimum Original order is \$100.00. There are no restrictions on reorders in a given season. We always strive to find the most cost effective way to ship.

**Credit Policy**

Our wholesale prices are available to commercial growers and licensed nurseries. A 25% deposit is requested to reserve your order, payable when the order is confirmed. In the event of shortages, orders without a deposit may be canceled or reduced. Customer cancellations made within 3 weeks of ship date or after March 1<sup>st</sup> may forfeit deposit. Credit may be established by application and review, otherwise payment in advance is required. A 1.5% (18% APR) **service charge will be added and collected** to any invoice not paid within the payment period.

**Please order in standard bundles or multiples thereof.** Different cultivars may not be combined for a lower rate except in the case of blueberries. 10 rate = 10-24 plants; 25 rate = 25-99; 100 rate = 100-499; 500 rate = 500-999 1000 rate = 1000-10,000; 10m rate = 10,000 and up.

**Additional packing charges are for our cost of shipping materials only. All freight charges are billed to the customer from Keizer, Oregon. Returned checks carry a \$30.00 service fee.**

Nursery stock shipments from Weeks Berry Nursery are in compliance with the Nursery License Law of the State of Oregon. If, for some special circumstance, a Phytosanitary Certificate is requested by the customer, we must have notice well in advance of shipment to insure inspection time. A 30 day notice, prior to shipment, is minimal. There is a \$25.00 fee for each certificate issued by the ODA. This charge will be included in the customer's invoice. In order to be valid, the Phytosanitary Certificate must accompany the shipment. Canadian accounts need a Vaccinium Import Permit. Phytosanitary Charge subject to change.

**All orders are booked** subject to availability of stock with due regard to flood, freeze, fire, and other causes beyond our control. It is mutually understood that our liability for legitimate complaints shall never exceed cost of replacement and we give no warranty expressed or implied. All prices FOB Keizer, Oregon. Claims will receive consideration only if made within 10 days of delivery. Phone claims must be followed by a claim in writing. We are not responsible for cultural problems incurred by the customer.

**Patented Plant Material**

Patented plants may not be propagated without a license from the patent owner. In general, use for fruit production is allowed in the United States and Canada; export to other foreign countries is restricted. Royalty fees for the plant material in this catalog are added into the cost of the plants.
