

Cultural Tips For The Successful Grower
White Diamond

White Diamond: A rather tart, delicately flavored, juicy green grape. Grown extensively in recent years in the Pacific Northwest for wine. White Diamond is also an excellent all-purpose grape. Ripens along with Niagara. Zone 5-8

Planting Instructions: Grapes prefer a light soil with good drainage and moderate to high fertility. Soil should be kept moist the first year after planting, but the grapes will stand short dry periods in following years. A spring application of fertilizer (a balanced blend) is recommended. Plant grapes in early spring, pruning back top growth to two or three buds at planting time. Prune roots to avoid wadding of roots in planting hole. Grapes should be planted one inch deeper than plants grew in the nursery, and spaced eight feet APART for maximum performance.

Variety	Zone	Season	Size	Classification	Exposure	Flavor	Spacing
White Diamond	5-8 	 Mid September 	 Medium	Seeded	Full Sun 	Tart	8-10 feet
